MOY EFFECTS SPLENDID CURE AT MOOSE JAW

Edmonton to Bulletin
MOOSE JAW, Sask., April 11—Responding to the gospel of dietetics as the panacea for practically every disorder of the human body Dr. Frank McCoy of Los Angeles, Calif., famous through his books and newspaper articles, addressed four large meetings here Saturday, his words being also broadcast by two local radio stations to all parts of the surrounding country.

He came as the guest of the Times Herald newspaper and left with an addition of over 4,000 to his vast army of health disciples in Canada and United States.

Remarkable Cure

Dr. McCoy, whose tall and vege-tarian build has gained wide and well earned fame in curing a variety of ailments of human life, has a genuine and himself firmly here as a genuine health evangelist. In proof of his effectiveness he showed to four successive audiences of 100 to 200 people, a 12-year-old daughter of Mr. and Mrs. Percy Jones, 414 placidissima street, East, whose stomach affliction, had been requested in little more than two weeks to a fruit juice diet, specially prescribed by Dr. McCoy.

In this case the most interesting cure of the health evangelist, in that the child had suffered from as many as 25 epileptic fits in one day, she was unable to attend school and was forced to abandon music lessons on which her mother had started her.

After two weeks of the McCoy diet she was able to eat almost normally, avoiding, however, at the doctors' instructions sugar, starchy foods and certain fats.

Cure at Long Range

The cure was effected entirely at long range. Dr. McCoy, as in most cases of similar cases, not having the benefit of a personal interview with the little patient.

HEADS OF WORLD FAMOUS STORES ARE CONFIDENT

Convinced that business conditions and future prospects warrant expansion of their immense chain store system in Canada, F. L. Thompson, director of Liggett's Drug Company and at present in charge of the company's Canadian operations, accompanied by Charles McCallum, chairman of the board of the Canadian Liggett's Company, is an Edmonton visitor today.

"While our company at present operates 32 stores in Canada, the healthy condition of the country warrants us keeping in close touch, and we are continually seeking opportunities of establishing new businesses," Mr. McCallum stated. Last month one of the finest drug stores in western Canada was opened by this company in the new metropolitan building at 1111-1113 street, while a store of similar attractiveness is now housed in the new Curry building in Winnipeg.

Liggett's company executives are competing a tour of inspection of interest both in the United States and Canada. On the Pacific coast the thirty-third store is being opened in Los Angeles, while in Seattle the new 12-story Liggett's building is rapidly nearing completion.

With the acquisition of the famous English company of Boots, the Liggett Drug Company controls a chain of more than 180 stores in England, United States and Canada, constituting easily the largest system of the kind in the world. "The success of our company is primarily due to the fact that all our stores, whether in England or in the United States or here, are operated under the same fundamental principles of management," said Mr. McCallum. He pointed out that so far as the Canadian trade was concerned, it was entirely in the hands of Canadian executives and the same applied to England. The United Drug Company of Toronto manufactures the Liggett product for the Canadian trade just as the United Drug Co. of Boston, the parent company, looked after the wants of the American chain system.

Many Canadians are employed by the company in the U.S. stores, according to Mr. McCallum, and one means up with them in the most unopposed places. "We're going to visit Edmonton," a young employee in a Lee Avenue store, told Mr. McCallum. "Well, if you happen to go to Youngstown, tell the folks there that I'm going down here." Mr. McCallum is the son of a Canadian, having been born in Paisley, Bruce County, Scotland, the Liggett company in 1884 and held that time has gradually grown to be one of the company's chief executives.

After a business conference today with C. F. Connor, president of the company's Edmonton store, the two Liggett executives were entertained for breakfast by the city's leading hotel.

U.S. Performs Beneficial Act To Radio Fans

Canadian Press
NEW YORK, April 11—Under the caption "Air Pirates to Watch the Plank," the New York World says: "In ordering forty-two stations to withdraw from broadcast channels which have been assigned to Canada, the federal radio commission is not only performing an act of international courtesy, but it is also taking first steps to rid the air of wave-jumpers responsible for the present chaos. The air can be cleared only by the elimination of a large number of existing stations, and in all justice the 'pirates' should be the first to 'watch the plank.'"

Postmaster F. H. Smith has received word of the death at Toronto on Sunday of his brother, W. R. Smith. The deceased was an original member of the Royal North West Mounted Police and came to Fort McLeod by way of Fort Benton, Montana, on the establishment of the force in the early '70s, years before there was a railway in the territories.

MAIL POLICE KILLED

SEATTLE, Wash., April 11—Ray, small, neat air mail pilot, was killed, and an unidentified passenger was injured, in an airplane crash at Sand Point naval air field, near here, Sunday night.

Bulls Eyes

Press people of Edward Ross gave a highly satisfactory social over the radio station CHCY on Saturday evening. Those taking part were: Marie Brett, Evelyn Brett, Kathleen Barle, Vera Daubert, Julia Hughes and Eliza Hughes. Katharine Hunter sang three solos, accompanied by Mr. Ross, the last one being one of Mr. Ross' monologues.

One of the worst accidents in the history of the west occurred on Saturday night, the train due to arrive at 11:58 Saturday night, running into the steam at Glen, where the four horse train occurred while the road was being cleared.

The Edmonton Light Club will hold an outdoor practice on the Diamond Park Monday night at 8:30 p.m. The following members of the club are requested to attend: Hendry, Pelham, Moore, Hunter, Brown, K. Mackenzie, D. Mackenzie, Reilly, J. Phillips, Young, Parks, Shirley, Miss Jones, Reese, Polley, L. Smith, A. Smith, Browne, Heron and any other members or men wishing to join the club.

WOMAN HELD WITH PISTOL AND ROBBED

Held up at the point of a revolver, Mrs. Charles Bon, wife of the proprietor, was backed into a corner of Barracks grocery store, 57th street and Jasper avenue, at 11 p.m. Saturday and robbed of \$65 from the cash register, Frank Stevenson, already awaiting trial on a theft charge, was arrested an hour later charged with the offense.

The woman's screams attracted the attention of two men outside, while a 17-year-old girl also peered through the window while the robbery was taking place. The men have identified Stevenson as the man who ran from the building, but city police have been unable to locate the girl to assist in identification of the accused.

Whips Out Revolver. Stevenson, according to the woman, entered the store and acting slowly to determine whether anyone was in the store, whipped out a nickel plated revolver and ordered her to open the cash register. Right away she backed up, with the revolver following her with the revolver. He opened the cash register, extracted \$55 and fled.

Stevenson was on the part of Inspector Rob Dutherland, and Det. Sgt. Petherick resulted in the arrest of the accused an hour later in a downtown block.

Former Convict to Start On Evangelistic Tour

Canadian Press
WINNIPEG, April 11—After serving several years in Kingston and Stony Mountain penitentiaries, Russell Robinson, a former bank robber, today is on route to Kingston, Ont., from where he will start an evangelistic tour which will take him to all parts of the Dominion and the "Unit-ed States."

Robinson, a convict of the Prison Bible society, was released from Stony Mountain penitentiary on Saturday. He had served a year in the Manitoba institution, having been transferred from Kingston.

The robbery of which Robinson was convicted was committed at Windsor, Ont., in 1921.

Public Crowd Empire To Hear Benefit Concert

Under the chairmanship of Dr. Frank Craig a benefit concert was given at the New Empire theatre Sunday evening.

The large auditorium was filled to capacity to hear a delightful program by a group of the city's leading artists. Though the program was a most interesting one, it was the utmost regret that the average member of the audience finally departed from the theatre.

TO THE CITIZENS OF EDMONTON

During a period of 30 years connecting 16 years of youth in Western Canada, I have never had an official manager or subordinate, of a corporation or firm, seek to discuss me as to who my employees should be in any capacity. The recent instance in the matter of my son-in-law in the 10th street subway is the only one.

This is clearly outlined in my open letter to His Worship the Mayor dated April 6, 1927, a copy of which was handed to the Press and for reasons unknown to myself have not as yet been published.

ANOTHER Solid Train Load of MARVELUBE

Even Bigger than
the one of the previous week

On Tuesday, March 29th, the largest single shipment of Motor Oil that Canada ever saw left our Sarnia Refinery for delivery to points in Southern Saskatchewan—twenty-eight cars, the whole shipment totalling 95,000 gallons.

Trainload shipments are rare in the oil business, and when you stop to think that this trainload carried nothing but Marvelube—a product that came on the market exactly a year ago—you can form some idea of the extremely high quality that must have gone into this oil to make it so quickly the most popular oil in Canada. Success such as Marvelube has attained is perhaps the most striking proof that can be offered of the truth of our big claims for its superiority as a lubricant.

To understand why we are shipping Marvelube by the trainload and to appreciate the common-sense which has led 200,000 motorists across Canada to adopt Marvelube, you need to try it in your own crank-case. Do that today—and see for yourself what a wonderful oil it is. Note the improved operation, the smoother, cooler running of your motor, the splendid condition of the oil when it comes out of your car at the end of a 500 mile run.

Another great advantage that you cannot immediately check—but which will show itself as you continue using Marvelube—is the protection it affords the working parts of your engine, resulting in lower upkeep costs and longer life for your car.

MODEL OF CLEANLINESS
If the housewife could visit a modern milk condenser, where pure country milk is in its proper convenience, she would be as delighted with the cleanliness of the would be amazed at the sign of the cleanliness in the British conditions, where Eagle Brand or St. Charles Milk is produced. The entire plant is subjected to a rigid cleanliness every day. Every part of the plant is kept clean, and every drop of piping through the milk, pasteurized, and with live steam. Mr. Charles milk, which is evaporated, is added to it, and nothing taken away except the portion of the natural moisture of the country milk. After being heated it is condensed, and it will keep perfectly in the unopened tin. Eagle Brand milk is condensed milk, is preserved for the addition of pure cream, and is not added to the fresh country milk. Condensed milk is called "sweetened" and the evaporated "unsweetened" milk.

After Long City Service
Thursdays have been turned down for Eddie. His day of usefulness so far as the city is concerned is over. But his tour of duty did not end until the word of his retirement had been passed. Now, from the proud position of having served the city and having built his name as a city hydrant, Eddie is being taken to a place of rest. Eddie is destined to spend his declining years in the shaft of a truck gardener's wagon.

MARKETS, GRAIN, FINANCIAL

ERRATIC WHEAT PRICES MONDAY

Canadian Press. April 11.—What the grain market has done in the last few days is a record. It has seen the price of wheat advance from 125 to 135 cents a bushel, and then fall back to 125 cents, and then rise again to 135 cents. The market is so erratic that it is difficult to keep track of the prices. The main reason for the fluctuations is the uncertainty about the weather in the West. If the weather is good, the crop will be large and the price will be low. If the weather is bad, the crop will be small and the price will be high. The market is also influenced by the demand for wheat in the East. If the demand is high, the price will be high. If the demand is low, the price will be low.
